*Spring 1953*

DEAR CUSTOMER AND FRIEND:

When we think of shipping, we always wish it were possible that you could come to us directly and take home our nice big blooming plants in 2½ or 3-inch pots which we sell locally. It is gratifying to know that thousands of our eager fans have come from long distances and done exactly that. They always enjoy the thrilling sight of thousands of Saintpaulias in bloom. They are usually pleasantly surprised to find such exceptionally sturdy and well developed plants and spend some relaxing moments while admiring and selecting their long desired favorites.

Yet, when it comes to all our friends who like Violets just as much, but simply cannot come because of distance or time, we had no choice but to ship. We cannot ship the larger plants, but we are ready to send the best in 2 inch size. Most of them are well developed, many in bud or bloom. Exceptions are some novelties where we run short because of unusually heavy demand. Then we take the next crop coming up rather than hold up your entire shipment.

Also we have to pick smaller plants on some of the large-leaved types, such as Behnke Boy, Georgia Belle, or Duponts, as they do not ship well if too big. We ship in paper pots, which reduces the breakage of foliage.

Adjustments will be gladly made if something is wrong with your order. Please write immediately upon receipt.

---

Wonderful comments on the excellent quality of our plants and the perfect condition upon arrival have been pouring in steadily. Therefore, you may order with full confidence, knowing that expert care is taken in shipping.
